

EYEZ ON ICE

Eyez on Ice is a new resource that has been developed to support health professionals when engaging with Aboriginal and Torres Strait Islander families and young people impacted by substance use, particularly crystal methamphetamine (ice).

Eyez on Ice also discusses how families can support loved ones impacted by substance use; respond to critical incidents; minimise harm and keep themselves and others safe.

To find out more please contact the QAIHC AOD team on 3328 8500.
